HAPPY NEW YEAR

TAL wishes you a very prosperous and, above all, healthy 2008. This year promises to be very exciting for us, with the Light & Building exhibition just around the corner. There, we will be presenting our new catalogue and our new collection, which we hope you will find both innovative and surprising.

New product: NOVA	9
New product: Projexor	10
CAD ON re-invented	10

SCOOP

With SCOOP we have developed a new fixture which is perfectly suited for the project market. The adjustability is a design feature of SCOOP, making it a very elegant but at the same time simple fixture. SCOOP is one of the most versatile luminaires available today. It can be ceiling-, wall- or floor mounted without the need for accessories. After installation, not a single screw remains visible. SCOOP is available for the following light sources : HIT, HI-PAR111, QR111, QT12 and LED. And that is not all. SCOOP is also available with a BOSE speaker system. To top things off, we offer various filters to further shape the light.

147018 SCOOP QR111 Ti Textured white
 147118 SCOOP QT12 24° Textured white
 147218 SCOOP Hi-PAR 111 35W BI Textured white
 147318 SCOOP Hi-PAR 111 70W BI Textured white
 147418 SCOOP HIT 35W 35° BI Textured white
 147518 SCOOP HIT 70W 35° BI Textured white

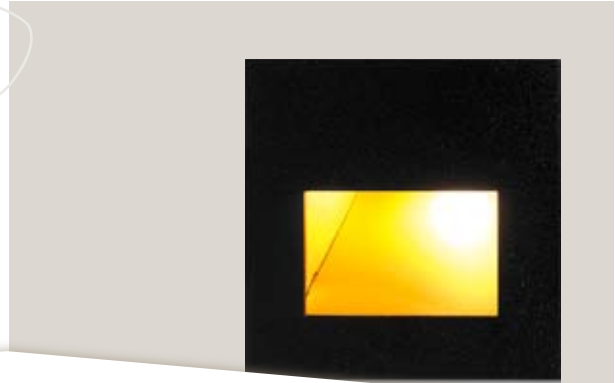

GOLD SERIES

Due to the success of our DART Gold and on popular customer demand, we have extended our "GOLD" series with the following models :

CLIO/ORION series in textured black finish with a gold focus ring

- 350670 CLICK indy QT14 Textured Black/Gold
- 350671 CLICK Indy QT9 Textured Black/Gold
- 501653 ZARA QR-C51 Textured Black/Gold

PROJECT

Electra Palace Hotel – Thessaloniki (Greece)

One of the most famous historical buildings in Greece !

Distributor : G-Lights (Greece)

NEW PRODUCT

HELAX HIT-m

HELAX is now available in 2 new versions : for QT12 halogen lamp and for the Philips Minimaster lamp. The big advantage of the latter is the combination of a small fixture with a very high efficiency towards light output. The Minimaster is currently available in 20W and 35 W. This fixture is ideal for places requiring constant light output e.g. kitchens, waiting rooms, pharmacies, shops etc...

SPECIAL PRODUCT

RAM W RGB version

It was imminent ... the demand for RAM W with powerLED but in RGB version. The result is simply astonishing ! In the meantime, we have also developed an exterior version of RAM W, making it suitable for humid spaces.

501412 RAM W PowerLED RGB Textured White

HEB RE-DESIGNED

Our HEB has been completely re-designed in order to adapt it to contemporary demands. HEB is now completely made of aluminium, making it a lot lighter but still just as solid ! The dimensions have slightly decreased from 160X160 mm. to 150X150 mm. HEB is now also available for powerLED (3X1W) in silver anthracite finish. The combination of this silver anthracite paint with amber coloured LEDs offers a truly wonderful result.

260801 – HEB 150/150 QT-DE12 150W Textured Grey
 150018 – HEB PowerLED 150/150 Cool White CI Textured Grey
 150138 – HEB PowerLED 150/150 Amber CI Silver Anthracite

SHOWROOM TAL

Address: Showroom TAL • Roeselaarsestraat 16A • 8850 Ardoorie

NEW PROFILE

2U R

Our popular 2U profile now also exists in a recessed version : 2U R which incorporates existing 2U features. The standard finish is textured matt white but other finishes are available on request.

Please contact our sales department for further information on this product.

152018 NOVA LED LEAF Textured White
152118 NOVA LED TORSION Textured White

NEW PRODUCT

NOVA

A new star is born : the novastar or, in short, NOVA. Very easy installation and connection (thanks to the integrated converter) are just some of its features. Total power consumption is a mere 1,2W. NOVA can be installed both in (hollow) walls as in ceilings.

NEW PRODUCT

PROJEXXOR

With PROJEXXOR, TAL have developed a new track luminaire. The fixture has a slim design and is suitable for all standard three-phase tracks. PROJEXXOR is available for the following light sources : HIT, HI-PAR 111 and QR111 , in each case with integral gear.

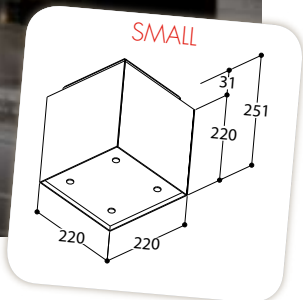

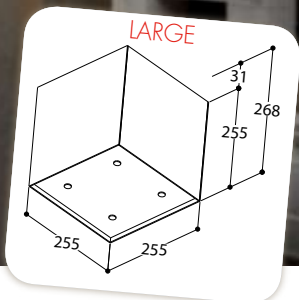

- 153026 – Projexxor HIT 35W 35° BI adaptor Textured Black
- 153126 – Projexxor HIT 70W 35° BI adaptor Textured Black
- 153226 – Projexxor HI-PAR111 35W BI adaptor Textured Black
- 153326 – Projexxor HI-PAR111 70W BI adaptor Textured Black
- 153426 – Projexxor QR111 50W TI adaptor Textured Black
- 153526 – Projexxor QR111 100W TI adaptor Textured Black

CAD ON RE-INVENTED

Our complete CAD ON range has been re-engineered. From now on, there are only two dimensions (SMALL & LARGE) instead of three. CAD ON can now also be equipped with 2X32W TC-TE and 2X42W TC-TE. The standard finish for CAD ON (and CAD on Cable) is textured matt white. Two more features of this new version are the absence of any visible screws and the increased ease of installation.

- 155018 CAD ON SMALL TC-DE 2X13W Textured White
- 155218 CAD ON LARGE TC-DE 2X26W Textured White
- 155318 CAD ON LARGE TC-TE 2X32W Textured White
- 155418 CAD ON LARGE TC-TE 2X42W Textured White
- 155518 CAD ON SMALL QT-DE 12 Textured White
- 155618 CAD ON SMALL HIT-DE 70W Textured White
- 156018 CAD ON CABLE SMALL TC-DE 2X13W Textured White
- 156218 CAD ON CABLE LARGE TC-DE 2X26W Textured White
- 155318 CAD ON CABLE LARGE TC-TE 2X32W Textured White
- 156418 CAD ON CABLE LARGE TC-TE 2X42W Textured White
- 156518 CAD ON CABLE SMALL QT-DE 12 Textured White
- 156618 CAD ON CABLE SMALL HIT-DE 70W Textured White
